Notes to the Condensed Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

UnitedHealth Group Incorporated (individually and together with its subsidiaries, “UnitedHealth Group” and the “Company”) is a health care and well-being company with a mission to help people live healthier lives and help make the health system work better for everyone. The Company’s two distinct, yet complementary businesses — Optum and UnitedHealthcare — are working to help build a modern, high-performing health system through improved access, affordability, outcomes and experiences for the individuals and organizations the Company is privileged to serve.

The Company has prepared the Condensed Consolidated Financial Statements according to U.S. Generally Accepted Accounting Principles (GAAP) and has included the accounts of UnitedHealth Group and its subsidiaries. The year-end condensed consolidated balance sheet was derived from audited financial statements, but does not include all disclosures required by GAAP. In accordance with the rules and regulations of the U.S. Securities and Exchange Commission (SEC), the Company has omitted certain footnote disclosures that would substantially duplicate the disclosures contained in its annual audited Consolidated Financial Statements. Therefore, these Condensed Consolidated Financial Statements should be read together with the Consolidated Financial Statements and the Notes included in Part II, Item 8, “Financial Statements and Supplementary Data” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2023 as filed with the SEC (2023 10-K). The accompanying Condensed Consolidated Financial Statements include all normal recurring adjustments necessary to present the interim financial statements fairly.

Use of Estimates

These Condensed Consolidated Financial Statements include certain amounts based on the Company’s best estimates and judgments. The Company’s most significant estimates relate to estimates and judgments for medical costs payable and goodwill. Certain of these estimates require the application of complex assumptions and judgments, often because they involve matters that are inherently uncertain and will likely change in subsequent periods. The impact of any change in estimates is included in earnings in the period in which the estimate is adjusted.

Revenues - Products and Services

As of June 30, 2024 and December 31, 2023, accounts receivable related to products and services were \$9.0 billion and \$8.6 billion, respectively. As of June 30, 2024, revenue expected to be recognized in any future year related to remaining performance obligations, excluding revenue pertaining to contracts having an original expected duration of one year or less, contracts where revenue is recognized as invoiced and contracts with variable consideration related to undelivered performance obligations, was \$14.0 billion, of which approximately half is expected to be recognized in the next three years.

2. Investments

The Company held \$4.2 billion and \$4.9 billion of equity securities as of June 30, 2024 and December 31, 2023, respectively. The Company's investments in equity securities primarily consist of venture investments and employee savings plan related investments. Additionally, the Company's investments included \$1.7 billion and \$1.4 billion of equity method investments primarily in operating businesses in the health care sector as of June 30, 2024 and December 31, 2023, respectively. The allowance for credit losses on held-to-maturity securities at June 30, 2024 and December 31, 2023 was not material.

The amortized cost and fair value of debt securities as of June 30, 2024, by contractual maturity, were as follows:

The Company's unrealized losses from debt securities as of June 30, 2024 were generated from approximately 33,000 positions out of a total of 40,000 positions. The Company believes that it will timely collect the principal and interest due on its debt securities that have an amortized cost in excess of fair value. The unrealized losses were primarily caused by interest rate increases and not by unfavorable changes in the credit quality associated with these securities which impacted the Company's assessment on collectability of principal and interest. At each reporting period, the Company evaluates available-for-sale debt securities for any credit-related impairment when the fair value of the investment is less than its amortized cost. The Company evaluated the expected cash flows, the underlying credit quality and credit ratings of the issuers, noting no significant credit deterioration since purchase. As of June 30, 2024, the Company did not have the intent to sell any of the available-for-sale debt securities in an unrealized loss position. Therefore, the Company believes these losses to be temporary. The allowance for credit losses on available-for-sale debt securities at June 30, 2024 and December 31, 2023 was not material.

3. Fair Value

Certain assets and liabilities are measured at fair value in the Condensed Consolidated Financial Statements or have fair values disclosed in the Notes to the Condensed Consolidated Financial Statements. These assets and liabilities are classified into one of three levels of a hierarchy defined by GAAP.

For a description of the methods and assumptions that are used to estimate the fair value and determine the fair value hierarchy classification of each class of financial instrument, see Note 4 of Notes to the Consolidated Financial Statements included in Part II, Item 8, “Financial Statements and Supplementary Data” in the 2023 10-K.

The following table presents a summary of fair value measurements by level and carrying values for items measured at fair value on a recurring basis in the Condensed Consolidated Balance Sheets:

There were no transfers in or out of Level 3 financial assets or liabilities during the six months ended June 30, 2024 or 2023.

The following table presents a summary of fair value measurements by level and carrying values for certain financial instruments not measured at fair value on a recurring basis in the Condensed Consolidated Balance Sheets:

(in millions)	Quoted Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	Total Fair Value	Total Carrying Value

Nonfinancial assets and liabilities or financial assets and liabilities that are measured at fair value on a nonrecurring basis are subject to fair value adjustments only in certain circumstances, such as when the Company records an impairment. The assets and liabilities within our South American operations held for sale as of June 30, 2024 were measured at the lower of carrying value or fair value less cost to sell. Fair value is measured based upon unobservable amounts, such as estimated selling price derived from Company-specific information and market conditions. There were no other significant fair value adjustments for assets and liabilities recorded during the six months ended June 30, 2024 or 2023.

4. Medical Costs Payable

The following table shows the components of the change in medical costs payable for the six months ended June 30:

(in millions)	2024	2023
Medical costs payable, beginning of period	\$ 32,395	\$ 29,056
Acquisitions (dispositions), net	(687)	1
Reported medical costs:

Less: medical costs payable included within businesses held for sale	(179)	—
Medical costs payable, end of period	<u>\$ 32,547</u>	<u>\$ 31,947</u>

For the six months ended June 30, 2024 and 2023, prior years' medical cost reserve development included no individual factors that were significant. Medical costs payable included reserves for claims incurred by consumers but not yet reported to the Company of \$23.6 billion and \$22.3 billion at June 30, 2024 and December 31, 2023, respectively.

5. Short-Term Borrowings and Long-Term Debt

In March 2024, the Company issued \$6.0 billion of senior unsecured notes consisting of the following:

(in millions, except percentages)	Par Value
4.600% notes due April 2027	\$ 500
4.700% notes due April 2029	400
4.900% notes due April 2031	1,000
5.000% notes due April 2034	1,250
5.375% Notes due April 2054	1,750
5.500% Notes due April 2064	1,100

In July 2024, the Company issued \$12.0 billion of senior unsecured notes consisting of the following:

(in millions, except percentages)	Par Value
Floating rate notes due July 2026	\$ 500
4.750% notes due July 2026	650
4.800% notes due January 2030	1,250
4.950% notes due January 2032	1,500
5.150% notes due July 2034	2,000
5.500% notes due July 2044	1,500
5.625% notes due July 2054	2,750
5.750% notes due July 2064	1,850

As of June 30, 2024, the Company had \$9.9 billion of commercial paper outstanding, with a weighted-average annual interest rate of 5.4%.

In May 2024, the Company entered into an additional \$3 billion 364-day revolving bank credit facility and a \$5 billion 364-day delayed draw term loan. As of June 30, 2024 no amount had been drawn on any of the bank credit facilities.

For more information on the Company's short-term borrowings, debt covenants and long-term debt, see Note 8 of Notes to the Consolidated Financial Statements included in Part II, Item 8, "Financial Statements and Supplementary Data" in the 2023 10-K.

6. Shareholders' Equity

Share Repurchase Program

In June 2024, the Company's Board of Directors amended the Company's share repurchase program to authorize the repurchase of up to 35 million shares of Common Stock, in addition to all remaining shares authorized to be repurchased under the Board's 2018 renewal of the program. As of June 30, 2024, the Company had 44 million shares remaining available under its share repurchase authorization.

Dividends

In June 2024, the Company's Board of Directors increased the Company's quarterly cash dividend to shareholders to an annual rate of \$8.40 compared to \$7.52 per share, which the Company had paid since June 2023. Declaration and payment of future quarterly dividends is at the discretion of the Board of Directors and may be adjusted as business needs or market conditions change.

The following table provides details of the Company's dividend payments during the six months ended June 30, 2024:

Payment Date	Amount per Share	Total Amount Paid (in millions)
March 19	\$ 1.88	\$ 1,729
June 25	2.10	1,935

7. Commitments and Contingencies

Pending Transactions

As of June 30, 2024, the Company had entered into transaction agreements in the health care sector, subject to regulatory approval and/or other customary closing conditions. The total anticipated consideration required for these transactions, excluding the payoff of acquired indebtedness, was approximately \$6 billion. In July, 2024, the Company completed transactions in the health care sector for total consideration of approximately \$10 billion.

Legal Matters

The Company is frequently made party to a variety of legal actions and regulatory inquiries, including class actions and suits brought by members, care providers, consumer advocacy organizations, customers and regulators, relating to the Company's businesses, including management and administration of health benefit plans and other services. These matters include medical malpractice, employment, intellectual property, antitrust, privacy and contract claims and claims related to health care benefits coverage and other business practices.

The Company records liabilities for its estimates of probable costs resulting from these matters where appropriate. Estimates of costs resulting from legal and regulatory matters involving the Company are inherently difficult to predict, particularly where the matters: involve indeterminate claims for monetary damages or may involve fines, penalties or punitive damages; present novel legal theories or represent a shift in regulatory policy; involve a large number of claimants or regulatory bodies; are in the early stages of the proceedings; or could result in a change in business practices. Accordingly, the Company is often unable to estimate the losses or ranges of losses for those matters where there is a reasonable possibility or it is probable a loss may be incurred.

Government Investigations, Audits and Reviews

The Company has been involved or is currently involved in various governmental investigations, audits and reviews. These include routine, regular and special investigations, audits and reviews by the Centers for Medicare and Medicaid Services (CMS), state insurance and health and welfare departments, state attorneys general, the Office of the Inspector General, the Office of Personnel Management, the Office of Civil Rights, the Government Accountability Office, the Federal Trade Commission, U.S. Congressional committees, the U.S. Department of Justice (DOJ), the SEC, the Internal Revenue Service, the U.S. Drug Enforcement Administration, the U.S. Department of Labor, the Federal Deposit Insurance Corporation, the Consumer Financial Protection Bureau (CFPB), the Defense Contract Audit Agency and other governmental authorities. Similarly, the Company's international businesses are also subject to investigations, audits and reviews by applicable foreign governments. The Company has also been responding to subpoenas, information requests and investigations from governmental entities. The Company can provide no assurance as to the scope and outcome of these matters and no assurance as to whether its business, financial condition or results of operations will be materially adversely affected. Certain of the Company's businesses have been reviewed or are currently under review, including for, among other matters, compliance with coding and other requirements under the Medicare risk-adjustment model. CMS has selected certain of the Company's local plans for risk adjustment data validation (RADV) audits to validate the coding practices of and supporting documentation maintained by health care providers and such audits may result in retrospective adjustments to payments made to the Company's health plans.

On February 14, 2017, the DOJ announced its decision to pursue certain claims within a lawsuit initially asserted against the Company and filed under seal by a whistleblower in 2011. The whistleblower's complaint, which was unsealed on February 15, 2017, alleges the Company made improper risk adjustment submissions and violated the False Claims Act. On February 12, 2018, the court granted in part and denied in part the Company's motion to dismiss. In May 2018, the DOJ moved to dismiss the Company's counterclaims, which were filed in March 2018, and moved for partial summary judgment. In March 2019, the court denied the government's motion for partial summary judgment and dismissed the Company's counterclaims without prejudice. The Company cannot reasonably estimate the outcome which may result from this matter given its procedural status.

8. Disposition and Held for Sale

On February 6, 2024, the Company completed the sale of its Brazil operations. During the six months ended June 30, 2024, the Company recorded a loss of \$7.1 billion within the Condensed Consolidated Statement of Operations, of which \$4.1 billion related to the impact of cumulative foreign currency translation losses previously included in accumulated other comprehensive loss.

In the second quarter of 2024, the Company initiated a plan to sell its remaining South American operations. The sales are expected to close within a year, subject to regulatory and other customary closing conditions. The Company determined that the businesses are classified as held for sale. Assets and liabilities held for sale have been included within prepaid and other current assets and other current liabilities on the Condensed Consolidated Balance Sheet, respectively. In the second quarter of 2024, the Company recorded a loss of \$1.2 billion within the Condensed Consolidated Statements of Operations, of which \$867 million related to the impact of cumulative foreign currency translation losses.

The assets and liabilities of the Brazil and held for sale disposal groups as of the date of the sale and as of June 30, 2024, respectively, were as follows:

(in millions)	Brazil Disposition	Businesses Held for Sale

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read together with the accompanying Condensed Consolidated Financial Statements and Notes and with our 2023 10-K, including the Consolidated Financial Statements and Notes included in Part II, Item 8, "Financial Statements and Supplementary Data" in that report. Unless the context indicates otherwise, references to the terms "UnitedHealth Group," the "Company," "we," "our" or "us" used throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations refer to UnitedHealth Group Incorporated and its consolidated subsidiaries.

Readers are cautioned that the statements, estimates, projections or outlook contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations, including discussions regarding financial prospects, economic conditions, trends and uncertainties contained in this Item 2, may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA). These forward-looking statements involve risks and uncertainties that may cause our actual results to differ materially from the results discussed or implied in the forward-looking statements. A description of some of the risks and uncertainties is set forth in Part I, Item 1A, "Risk Factors" in our 2023 10-K and in the discussion below.

EXECUTIVE OVERVIEW

General

UnitedHealth Group is a health care and well-being company with a mission to help people live healthier lives and help make the health system work better for everyone. Our two distinct, yet complementary businesses — Optum and UnitedHealthcare — are working to help build a modern, high-performing health system through improved access, affordability, outcomes and experiences for the individuals and organizations we are privileged to serve.

We have four reportable segments:

- Optum Health;
- Optum Insight;
- Optum Rx; and
- UnitedHealthcare, which includes UnitedHealthcare Employer & Individual, UnitedHealthcare Medicare & Retirement and UnitedHealthcare Community & State.

Further information on our business is presented in Part I, Item 1, "Business" and Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2023 10-K and additional information on our segments can be found in this Item 2 and in Note 9 of Notes to the Condensed Consolidated Financial Statements included in Part I, Item 1 of this report.

Change Healthcare Cyberattack

As previously announced, on February 21, 2024, we identified that cybercrime threat actors had gained access to certain Change Healthcare information technology systems. Upon detection of this outside threat, we isolated the impacted systems to protect our partners and customers.

We have made substantial progress in mitigating the impact to consumers and care providers of the unprecedented cyberattack on the U.S. health system and have restored the majority of the affected Change Healthcare services. To support care providers, we accelerated funding and provided interest-free loans of more than \$9 billion through June 30, 2024. For the three and six months ended June 30, 2024, we incurred \$776 million and \$1.4 billion of direct response costs, respectively, including network restoration and increased medical care expenditures, as we suspended some care management activities to help care providers with their workflow processes. Optum Insight also experienced estimated business disruption impacts of \$334 million and \$613 million for the three and six months ended June 30, 2024, respectively, reflecting lost revenue while maintaining full readiness of the affected Change Healthcare services. We expect to continue to incur direct response costs and experience business disruption impacts over the remainder of the year, including costs to continue to restore Change Healthcare's services.

Based upon our ongoing review of the impacted data, we have found files containing protected health information (PHI) or personally identifiable information (PII), which cover a substantial proportion of people in America. In June 2024, Change Healthcare gave public notice of the breach under HIPAA and began notifying affected customer entities in June and individuals in late July. The investigation of impacted data is ongoing. It is possible that future risks and uncertainties resulting from the Change Healthcare cyberattack, including risks related to impacted data, litigation, reputational harm, and regulatory actions could adversely affect our financial condition or results of operations.

Business Trends

Our businesses participate in the United States and certain other international health markets. We expect overall spending on health care to continue to grow in the future, due to inflation, medical technology and pharmaceutical advancement, regulatory requirements, demographic trends in the population and national interest in health and well-being. The rate of market growth may be affected by a variety of factors, including macroeconomic conditions and regulatory changes, which could impact our results of operations, including our continued efforts to control health care costs.

Pricing Trends. To price our health care benefits, products and services, we start with our view of expected future costs, including medical cost trends, inflation and labor market dynamics. We frequently evaluate and adjust our approach in each of the local markets we serve, considering all relevant factors, such as product positioning, price competitiveness and environmental, competitive, legislative and regulatory considerations, including minimum medical loss ratio thresholds and similar revenue adjustments. We will continue seeking to balance growth and profitability across all these dimensions.

The commercial risk market remains highly competitive in the small group, large group and individual segments. We expect broad-based competition to continue as the industry adapts to individual and employer needs.

Government programs in the community and senior sector tend to receive lower rates of increase than the commercial market due to governmental budget pressures and lower cost trends.

Medical Cost Trends. Our medical cost trends primarily relate to changes in unit costs, care activity and prescription drug costs. As expected and contemplated in our benefits design, we have continued to observe increased care patterns, primarily related to outpatient procedures for seniors, which may continue in future periods. We endeavor to mitigate those increases by engaging physicians and consumers with information and helping them make clinically sound choices, with the objective of helping them achieve quality, affordable care.

As a result of the Change Healthcare cyberattack, we incurred medical costs related to the impact of the temporary suspension of some care management activities, impacting our UnitedHealthcare and Optum Health businesses, to help care providers with their workflow processes. Early in the second quarter we resumed these activities. For the three and six months June 30, 2024, medical costs related to the temporary suspension of some care management activities were \$290 million and \$630 million, respectively.

Medicaid Redeterminations. Medicaid redeterminations have continued to impact the number of people served through our Medicaid offerings, partially offset by an increase in consumers served through our commercial offerings as we endeavor to ensure that people and families have continued access to care.

Regulatory Trends and Uncertainties

Medicare Advantage Rates. Medicare Advantage rate notices over the years have at times resulted in industry base rates well below the industry forward medical trend. For example, the Final Notices for 2024 and 2025 rates resulted in an industry base rate decrease, both well short of an increasing industry forward medical cost trend, creating continued pressure in the Medicare Advantage program. Further, substantial revisions to the risk adjustment model, which serves to adjust rates to reflect a patient's health status and care resource needs, will result in reduced funding and potentially benefits for people, especially those with some of the greatest health and social challenges.

As a result of ongoing Medicare funding pressures, there are adjustments we can make to partially offset these rate pressures and reductions for a particular period. For example, we can seek to intensify our medical and operating cost management, make changes to the size and composition of our care provider networks, adjust member benefits and implement or increase the member premiums supplementing the monthly payments we receive from the government. Additionally, we decide annually on a county-by-county basis where we will offer Medicare Advantage plans.

SELECTED OPERATING PERFORMANCE AND OTHER SIGNIFICANT ITEMS

The following summarizes select second quarter 2024 year-over-year operating comparisons to second quarter 2023 and other financial results.

- Consolidated revenues grew 6%, UnitedHealthcare revenues grew 5% and Optum revenues grew 12%.
- UnitedHealthcare served 1.6 million more people domestically, driven by growth in commercial offerings, partially offset by the impact of Medicaid redeterminations.
- Consolidated earnings from operations of \$7.9 billion compared to \$8.1 billion last year, impacted by the Change Healthcare cyberattack.
- Diluted earnings per common share was \$4.54, impacted by the loss on our South American subsidiaries held for sale and the Change Healthcare cyberattack.
- Cash flows from operations for the six months ended June 30, 2024 were \$7.9 billion.

(a) Medical care ratio (MCR) is calculated as medical costs divided by premium revenue.

(b) Net earnings margin attributable to UnitedHealth Group shareholders.

(c) Return on equity is calculated as annualized net earnings attributable to UnitedHealth Group common shareholders divided by average shareholders' equity. Average shareholders' equity is calculated using the shareholders' equity balance at the end of the preceding year and the shareholders' equity balances at the end of each of the quarters in the year presented.

2024 RESULTS OF OPERATIONS COMPARED TO 2023 RESULTS OF OPERATIONS

Consolidated Financial Results

Revenues

The increases in revenues were primarily driven by growth in Optum Rx and Optum Health, growth across our UnitedHealthcare domestic offerings and pricing trends, partially offset by decreased UnitedHealthcare international revenue due to the sale of our Brazil operations.

Medical Costs and MCR

Medical costs increased primarily due to growth in people served through Medicare Advantage, those with higher acuity needs and domestic commercial offerings. The MCR increased as a result of the revenue effects of the Medicare funding reductions, incremental medical costs for accommodations made to care providers as a result of the Change Healthcare cyberattack, South American impacts and decreased favorable reserve development.

Operating Cost Ratio

The operating cost ratio decreased primarily due to operating cost management, partially offset by the impact of our direct response efforts to the Change Healthcare cyberattack and investments to support future growth.

Loss on Sale of Subsidiary and Subsidiaries Held for Sale

On February 6, 2024, the Company completed the sale of its Brazil operations. During the six months ended June 30, 2024, we recorded a loss of \$7.1 billion, of which \$4.1 billion related to the impact of cumulative foreign currency translation losses previously included in accumulated other comprehensive loss.

In the second quarter of 2024, the Company initiated a plan to sell its remaining South American operations, which were classified as held for sale as of June 30, 2024. As a result, the Company recorded a loss of \$1.2 billion, of which \$867 million related to the impact of cumulative foreign currency translation losses.

Reportable Segments

See Note 9 of Notes to the Condensed Consolidated Financial Statements included in Part I, Item 1 of this report for more information on our segments. We utilize various metrics to evaluate and manage our reportable segments, including people served by UnitedHealthcare by major market segment and funding arrangement, people served by Optum Health and adjusted scripts for Optum Rx. These metrics are the main drivers of revenue, earnings and cash flows at each business. The metrics also allow management and investors to evaluate and understand business mix, including the level and scope of services provided to people, and pricing trends when comparing the metrics to revenue by segment.

The following table presents a summary of the reportable segment financial information:

UnitedHealthcare's revenues increased due to growth in the number of people served through Medicare Advantage, domestic commercial offerings and those with higher acuity needs, partially offset by decreased people served globally due to the sale of our Brazil operations and Medicaid offerings due to continued redeterminations. Earnings from operations increased due to the factors impacting revenue, partially offset by Medicare Advantage funding reductions and incremental medical costs for accommodations to support care providers as a result of the Change Healthcare cyberattack.

Optum

Total revenues increased due to growth at Optum Rx and Optum Health. Earnings from operations increased for the three months ended June 30, 2024 and were consistent for the six months ended June 30, 2024, with growth at Optum Rx and Optum Health offset by the impacts of the Change Healthcare cyberattack. The results by segment were as follows:

Optum Health

Revenues at Optum Health increased primarily due to organic growth in patients served under value-based care arrangements. Earnings from operations increased due to cost management initiatives, partially offset by costs associated with serving newly added patients under value-based care arrangements. For the six months ended June 30, 2024, earnings from operations increases were also partially offset by incremental medical costs for accommodations to support care providers as a result of the Change Healthcare cyberattack. Optum Health served approximately 104 million people and 103 million people as of June 30, 2024 and June 30, 2023, respectively.

Optum Insight

Revenues at Optum Insight decreased due the business disruption impacts from the Change Healthcare cyberattack, partially offset by growth in technology services. Earnings from operations decreased primarily due to the business disruption impacts and direct response costs related to the Change Healthcare cyberattack.

Optum Rx

Revenues and earnings from operations at Optum Rx increased due to higher script volumes from both new clients and growth in existing clients and growth in pharmacy services. Optum Rx fulfilled 399 million and 381 million adjusted scripts in the second quarters of 2024 and 2023, respectively.

2024 Cash Flows Compared to 2023 Cash Flows

Decreased cash flows provided by operating activities were primarily driven by the receipt of the July CMS premium payment of \$11.8 billion in June 2023 and Change Healthcare cyberattack response actions, including the acceleration of provider payments. Other significant changes in sources or uses of cash year-over-year included decreased cash paid for acquisitions, increased net issuances of short-term borrowings and long-term debt, decreased share repurchases and net purchases of investments, offset by loans to care providers in response to the Change Healthcare cyberattack and decreased customer funds administered.

Financial Condition

As of June 30, 2024, our cash, cash equivalent, available-for-sale debt securities and equity securities balances of \$75.2 billion included approximately \$26.3 billion of cash and cash equivalents (of which \$4.1 billion was available for general corporate use), \$44.7 billion of debt securities and \$4.2 billion of investments in equity securities. Given the significant portion of our portfolio held in cash and cash equivalents, we do not anticipate fluctuations in the aggregate fair value of our financial assets to have a material impact on our liquidity or capital position. Our available-for-sale debt securities portfolio had a weighted-average duration of 4.0 years and a weighted-average credit rating of “Double A” as of June 30, 2024. When multiple credit ratings are available for an individual security, the average of the available ratings is used to determine the weighted-average credit rating.

Capital Resources and Uses of Liquidity

In addition to cash flows from operations and cash and cash equivalent balances available for general corporate use, our capital resources and uses of liquidity are as follows:

Cash Requirements. A summary of our cash requirements as of December 31, 2023 was disclosed in Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2023 10-K. During the six months ended June 30, 2024, there were no material changes to this previously disclosed information outside the ordinary course of business. We believe our capital resources are sufficient to meet future, short-term and long-term, liquidity needs. We continually evaluate opportunities to expand our operations, including through internal development of new products, programs and technology applications and business combinations.

Short-Term Borrowings. Our revolving bank credit facilities provide liquidity support for our commercial paper borrowing program, which facilitates the private placement of unsecured debt through independent broker-dealers, and are available for general corporate purposes. For more information on our commercial paper and bank credit facilities, see Note 5 of Notes to the Condensed Consolidated Financial Statements included in Part I, Item 1 of this report and Note 8 of Notes to the Consolidated Financial Statements included in Part II, Item 8, “Financial Statements and Supplementary Data” in our 2023 10-K.

Our revolving bank credit facilities contain various covenants, including covenants requiring us to maintain a defined debt to debt-plus-shareholders’ equity ratio of not more than 60%. As of June 30, 2024, our debt to debt-plus-shareholders’ equity ratio, as defined and calculated under the credit facilities, was approximately 43%.

Long-Term Debt. Periodically, we access capital markets and issue long-term debt for general corporate purposes, such as to meet our working capital requirements, to refinance debt, to finance acquisitions or for share repurchases. For more information on our long-term debt, see Note 5 of Notes to the Condensed Consolidated Financial Statements included in Part I, Item 1 of this report and Note 8 of Notes to the Consolidated Financial Statements included in Part II, Item 8, “Financial Statements and Supplementary Data” in our 2023 10-K.

Credit Ratings. Our credit ratings as of June 30, 2024 were as follows:

	Moody’s		S&P Global		Fitch		A.M. Best	
	Ratings	Outlook	Ratings	Outlook	Ratings	Outlook	Ratings	Outlook
Senior unsecured debt.....	A2	Stable	A+	Stable	A	Stable	A	Stable
Commercial paper.....	P-1	n/a	A-1	n/a	F1	n/a	AMB-1+	n/a

The availability of financing in the form of debt or equity is influenced by many factors, including our profitability, operating cash flows, debt levels, credit ratings, debt covenants and other contractual restrictions, regulatory requirements and economic and market conditions. A significant downgrade in our credit ratings or adverse conditions in the capital markets may increase the cost of borrowing for us or limit our access to capital.

Share Repurchase Program. During the six months ended June 30, 2024, we repurchased approximately 6 million shares at an average price of \$505.46 per share. In June 2024, our Board of Directors amended our share repurchase program to authorize the repurchase of up to 35 million shares of Common Stock, in addition to all remaining shares authorized to be repurchased under the Board’s 2018 renewal of the program. As of June 30, 2024, we had Board of Directors’ authorization to purchase up to 44 million shares of our common stock. The Board of Directors from time to time may further amend the share repurchase program in order to increase the authorized number of shares which may be repurchased under the program.

Dividends. In June 2024, our Board of Directors increased our quarterly cash dividend to an annual rate of \$8.40 compared to \$7.52 per share, which we had paid since June 2023. For more information on our dividend, see Note 6 of Notes to the Condensed Consolidated Financial Statements included in Part I, Item 1 of this report.

Pending Transactions. As of June 30, 2024, the Company had entered into transaction agreements in the health care sector, subject to regulatory approval and/or other customary closing conditions. The total anticipated consideration required for these transactions, excluding the payoff of acquired indebtedness, was approximately \$6 billion. In July, 2024, the Company completed transactions in the health care sector for total consideration of approximately \$10 billion.

For additional liquidity discussion, see Note 10 of Notes to the Consolidated Financial Statements included in Part II, Item 8, “Financial Statements and Supplementary Data” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in Part II, Item 7 in our 2023 10-K.

RECENTLY ISSUED ACCOUNTING STANDARDS

There are no recently issued accounting standards that are expected to have a material impact on our Condensed Consolidated Financial Statements.

CRITICAL ACCOUNTING ESTIMATES

In preparing our Condensed Consolidated Financial Statements, we are required to make judgments, assumptions and estimates, which we believe are reasonable and prudent based on the available facts and circumstances. These judgments, assumptions and estimates affect certain of our revenues and expenses and their related balance sheet accounts and disclosure of our contingent liabilities. We base our assumptions and estimates primarily on historical experience and consider known and projected trends. On an ongoing basis, we re-evaluate our selection of assumptions and the method of calculating our estimates. Actual results, however, may materially differ from our calculated estimates, and this difference would be reported in our current operations.

Our critical accounting estimates include medical costs payable and goodwill. For a detailed description of our critical accounting estimates, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in Part II, Item 7 in our 2023 10-K. For a detailed discussion of our significant accounting policies, see Note 2 of Notes to the Consolidated Financial Statements included in Part II, Item 8, “Financial Statements and Supplementary Data” in our 2023 10-K.

FORWARD-LOOKING STATEMENTS

The statements, estimates, projections, guidance or outlook contained in this document include “forward-looking” statements which are intended to take advantage of the “safe harbor” provisions of the federal securities laws. The words “believe,” “expect,” “intend,” “estimate,” “anticipate,” “forecast,” “outlook,” “plan,” “project,” “should” and similar expressions identify forward-looking statements. These statements may contain information about financial prospects, economic conditions and trends and involve risks and uncertainties. Actual results could differ materially from those that management expects, depending on the outcome of certain factors including: our ability to effectively estimate, price for and manage medical costs; new or changes in existing health care laws or regulations, or their enforcement or application; cyberattacks, other privacy/data security incidents, or our failure to comply with related regulations; reductions in revenue or delays to cash flows received under government programs; changes in Medicare, the CMS star ratings program or the application of risk adjustment data validation audits; the DOJ’s legal action relating to the risk adjustment submission matter; our ability to maintain and achieve improvement in quality scores impacting revenue; failure to maintain effective and efficient information systems or if our technology products do not operate as intended; risks and uncertainties associated with our businesses providing pharmacy care services; competitive pressures, including our ability to maintain or increase our market share; changes in or challenges to our public sector contract awards; failure to achieve targeted operating cost productivity improvements; failure to develop and maintain satisfactory relationships with health care payers, physicians, hospitals and other service providers; the impact of potential changes in tax laws and regulations; increases in costs and other liabilities associated with litigation, government investigations, audits or reviews; failure to complete, manage or integrate strategic transactions; risk and uncertainties associated with the continuing sale of operations in South America; risks associated with public health crises arising from large-scale medical emergencies, pandemics, natural disasters and other extreme events; failure to attract, develop, retain, and manage the succession of key employees and executives; our investment portfolio performance; impairment of our goodwill and intangible assets; failure to protect proprietary rights to our databases, software and related products; downgrades in our credit ratings; and our ability to obtain sufficient funds from our regulated subsidiaries or from external financings to fund our obligations, reinvest in our business, maintain our debt to total capital ratio at targeted levels, maintain our quarterly dividend payment cycle, or continue repurchasing shares of our common stock.

This above list is not exhaustive. We discuss these matters, and certain risks that may affect our business operations, financial condition and results of operations, more fully in our filings with the SEC, including our reports on Forms 10-K, 10-Q and 8-K. By their nature, forward-looking statements are not guarantees of future performance or results and are subject to risks, uncertainties and assumptions that are difficult to predict or quantify. Actual results may vary materially from expectations expressed or implied in this document or any of our prior communications. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. We do not undertake to update or revise any forward-looking statements, except as required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We manage exposure to market interest rates by diversifying investments across different fixed-income market sectors and debt across maturities, as well as by matching a portion of our floating-rate assets and liabilities, either directly or through the use of interest rate swap contracts. Unrealized gains and losses on investments in available-for-sale debt securities are reported in comprehensive income.

The following table summarizes the impact of hypothetical changes in market interest rates across the entire yield curve by 1% point or 2% points as of June 30, 2024 on our investment income and interest expense per annum, and the fair value of our investments and debt (in millions, except percentages):

Increase (Decrease) in Market Interest Rate	June 30, 2024			
	Investment Income Per Annum	Interest Expense Per Annum	Fair Value of Financial Assets	Fair Value of Financial Liabilities
2 %.....	\$ 701	\$ 592	\$ (3,634)	\$ (7,939)
1	351	296	(1,869)	(4,329)
(1)	(351)	(279)	1,959	5,239
(2)	(701)	(557)	3,989	11,641

Note: The impact of hypothetical changes in interest rates may not reflect the full 100 or 200 basis point change on interest income and interest expense or on the fair value of financial assets and liabilities as the rates are assumed to not fall below zero.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (Exchange Act) that are designed to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms; and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

In connection with the filing of this quarterly report on Form 10-Q, management evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2024. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of June 30, 2024.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There have been no changes in our internal control over financial reporting during the quarter ended June 30, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

A description of our legal proceedings is included in and incorporated by reference to Note 7 of Notes to the Condensed Consolidated Financial Statements included in Part I, Item 1 of this report.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A, “Risk Factors” of our 2023 10-K, which could materially affect our business, financial condition or future results. The risks described in our 2023 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

There have been no material changes to the risk factors as disclosed in our 2023 10-K.

ITEM 2. UNREGISTERED SALE OF EQUITY SECURITIES AND USE OF PROCEEDS

In November 1997, our Board of Directors adopted a share repurchase program, which the Board of Directors evaluates periodically. In June 2024, the Board of Directors amended our share repurchase program to authorize the repurchase of up to 35 million shares of our common stock in open market purchases or other types of transactions (including prepaid or structured repurchase programs), in addition to all remaining shares authorized to be repurchased under the Board's 2018 renewal of the program. There is no established expiration date for the program. The Board of Directors from time to time may further amend the share repurchase program in order to increase the authorized number of shares which may be repurchased under the program.

There were no repurchases of the Company's Common Stock during the three months ended June 30, 2024. As of June 30, 2024, the Company had 44 million shares remaining available under its share repurchase authorization.

ITEM 5. OTHER INFORMATION

Trading Arrangements

During the quarter ended June 30, 2024, none of the Company's directors or officers (as defined in Rule 16a-1(f) under the Exchange Act) adopted or terminated any contract, instruction or written plan for the purchase or sale of Company securities intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act or any non-Rule 10b5-1 trading arrangement.
